

Dear Valued Customer:

The Bonneville Power Administration (BPA) provides the power we deliver to customers in Skamania County. BPA has implemented new market-based rates that have resulted in a 13.8% increase in power costs to Skamania County PUD. After considerable deliberation, the PUD Board of Commissioners decided to implement an across the board 5.5% rate increase to all Skamania County PUD electric customers effective October 1, 2011.

Skamania County PUD is committed to providing reliable power to meet customer needs. This rate increase will allow us to continue to provide quality services into the future. We appreciate your understanding. Any questions you may have can be directed to our Manager, Robert Gentry, at (509) 427-5126 or [rgentry@skamaniapud.com](mailto:rgentry@skamaniapud.com).

Thank you.
